

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
LABORATORY OBSERVATION

Student Name: M.Purna Chandra

Roll No: A24126552095

Branch & Sec: CSM-B

Date of Execution: 02 / 08 / 2026

Course Name: Full Stack Web Development

Course Code: 23CM4121

EXPERIMENT NO: 1

1. TITLE OF THE EXPERIMENT:

Implementation of Semantic HTML Static Webpage

2. MAPPED OUTCOMES:

- **Course Outcome (CO):** CO1
- **Program Outcomes (POs):** PO1, PO2, PO3, PO4, PO5

3. AIM:

To design and implement a program demonstrating webpage titled "**College Information Portal**"

4. ALGORITHM / DESIGN:

Algorithm: Design of College Information Portal

Step 1: Start & Setup — Initialize the HTML5 document with <html>, <head>, UTF-8 encoding, and page title.

Step 2: Header Section — Create <header> containing a 3-column table for the college logo, portal title (<h1>), and navigation link (<nav>).

Step 3: About & Lists Section — Inside <main>, add an <article> with formatted text (, <i>, <u>, <sub>, <sup>), an unordered list () of departments, and an ordered list () for admission steps.

Step 4: Media & Registration Layout — Create a 2-column table to place media (, <audio>, <video>) on the left and a student registration <form> (with text, date, color, range, radio, checkbox, select, and textarea inputs) on the right.

Step 5: Data Table — Create a <table> with <thead> and <tbody> to display student records (Roll No, Name, Branch, Email).

Step 6: Footer & Close — Add a <footer> with copyright text, then close <body> and <html> tags.

5. TEST CASES & EXECUTION DATA:

Test Cases (Validation & UI Verification)

- **TC-01:** Input: Click on "Official College Website" link
Expected: Browser redirects to "<https://www.anits.org/>" | Status: Passed
- **TC-02:** Input: Click "Submit" button leaving required fields (Full Name, Email, Password) blank
Expected: Browser prompts HTML5 required validation messages | Status: Passed
- **TC-03:** Input: Enter "name@example.com" in Email field and valid details, then click "Submit" Expected: Form accepts input without email formatting errors | Status: Passed
- **TC-04:** Input: Enter Age as "15"
Expected: Browser prevents submission and displays value out-of-range validation | Status: Passed
- **TC-05:** Input: Click the Play button on the Audio and Video media players
Expected: Media streams and plays audio/video controls correctly | Status: Passed
- **TC-06:** Input: Fill out form fields and click "Reset" button
Expected: All entered form data clears to default empty states | Status: Passed

6. OUTPUT PROOF:

College Information Portal [Official College Website](#)

About Our Institution

Overview

Welcome to the **College Information Portal**. Our institution is dedicated to academic excellence and world-class research. We offer [advanced campus facilities](#) to nurture overall student development.

Note: Chemistry experiments require HCl solutions, and our innovation cell secured 1st place in national rankings.

Key Academic Departments

- Computer Science & Engineering
- Electronics & Communication Engineering
- Mechanical Engineering
- Civil Engineering

Admission Procedure

1. Complete the online application form.
2. Submit required academic transcripts.
3. Attend the counselor interview.
4. Confirm fee payment and final enrollment.

7. LEARNING OUTCOME / RESULT:

Successfully implemented and verified the program. Understood the underlying concepts and execution steps to develop well-structured HTML5 web pages by integrating semantic tags, multimedia components (audio, video, images), structured tables, and interactive forms with modern HTML5 input controls.

RUBRIC EVALUATION (Faculty Use Only)

1. **Design & Logic** (5 Marks):
 2. **Execution & Output** (5 Marks):
 3. **Viva & Record** (5 Marks):
-
